-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Withdrawal of Office Action*

In view of Applicant's arguments, the last Office action dated July 3, 2006 has been withdrawn. A new non-final rejection is provided herein.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by Levin et al. (US 4,471,915). Levin discloses a lid for a bowl of a food processor including:

1. a feed tube (62) extending from a top lid wall (58) along a feed axis;
2. the feed tube (62) including a continuous inner feed surface that defines a feed cavity (inside of 62);
3. a movable gate (a portion of 52) positioned within the feed cavity (inside of 62);
4. the movable gate (a portion of 52) being pivotable about a hub (56) on a swivel axis (56);
5. the movable gate (a portion of 52) pivotable within the feed cavity (inside of 62) between an open position and a compacting position (Figure 1); and

6. the swivel axis (56) being generally parallel to the feed axis.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 34 is rejected under 35 U.S.C. 103(a) as being unpatentable over Levin et al. (US 4,471,915) in view of Howard (US 4,397,427). The claim calls for a food pusher. In a closely related art, Howard discloses a food pusher being movable generally parallel to a feed axis within a feed tube in order to control food material (Figure 1). Therefore, it would have been obvious to one skilled in the art at the time the invention was made to provide Levin with a food pusher being movable generally parallel to a feed axis within a feed tube in order to control food material, as taught by Howard.

### ***Allowable Subject Matter***

Claim 33 is allowed.

Claims 17-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments with respect to claim 16 has been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason Y. Pahng whose telephone number is 571 272 4522. The examiner can normally be reached on 9:30 AM - 8:00 PM, Monday-Thursday.
